Geometri Desenleri

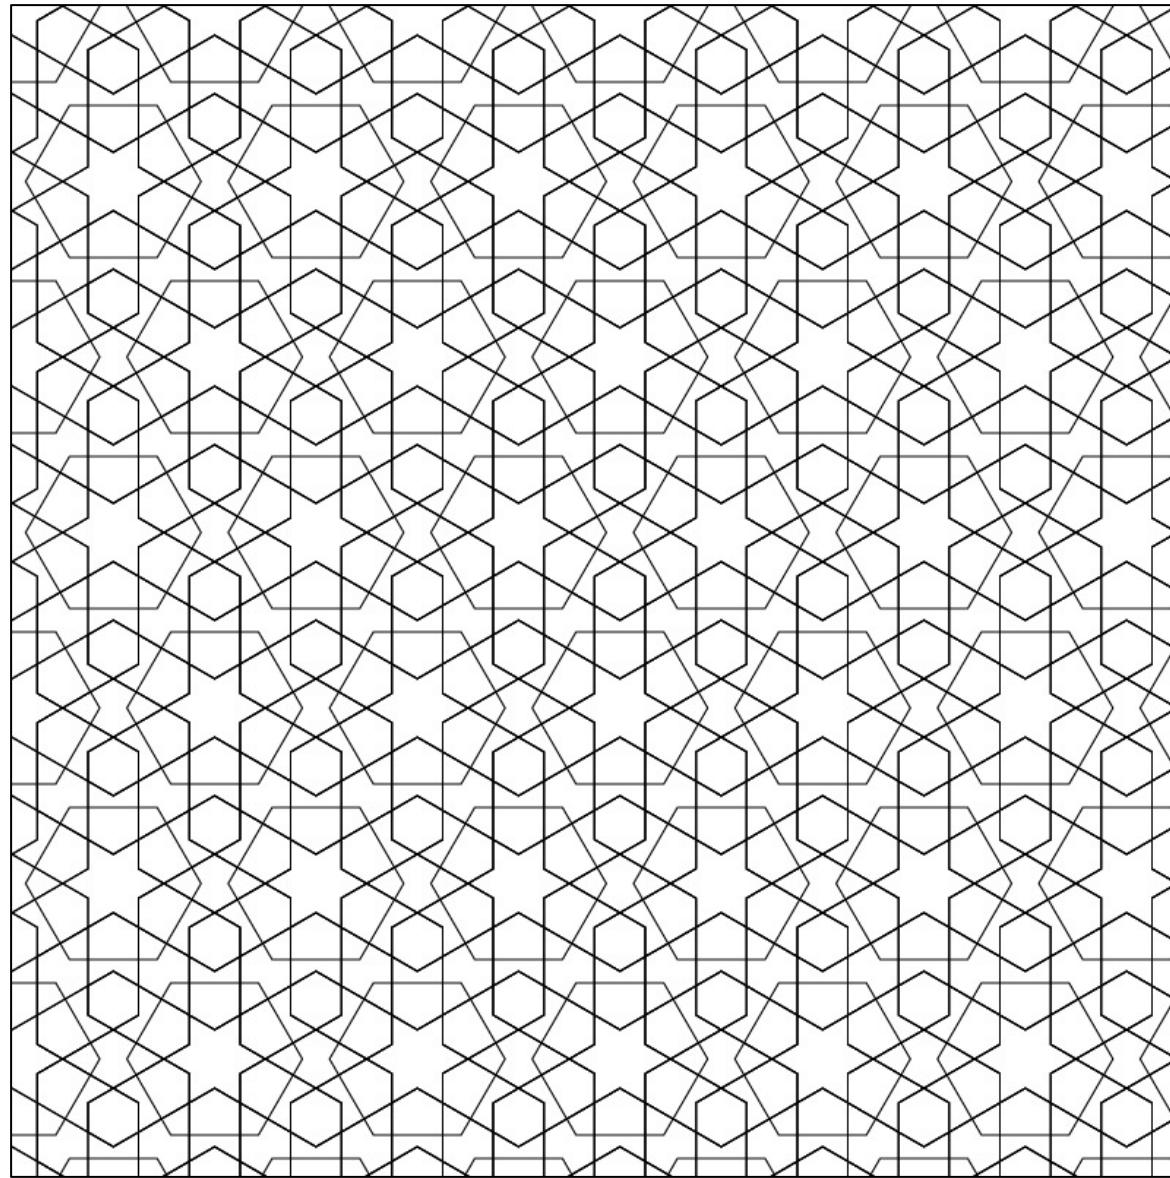

Bust, Afganistan

**Photograph 13** A Ghaznavid threefold pattern with six-pointed stars created from the *system of regular polygons* originally located at the South Palace at Lashgari Bazar near Bust, Afghanistan (© Thalia Kennedy)

**Asanoha** is a traditional Japanese pattern representing hemp leaves.

**Photograph 69** A Tughluqid ceramic panel from the tomb of Shah Rukn-i ‘Alam in Multan, Pakistan, with a pattern comprised of superimposed dodecagons that is easily created from the *system of*

*regular polygons* (© Aga Khan Trust for Culture-Aga Khan Award for Architecture/Jacques Betant [Photographer])
